

How to obtain Wiki/Data access for the CADD or GADD project.

- 1) Fill out the form: Application for Obtaining Data from CADD/GADD University of Colorado at Boulder
- 2) Complete all necessary certifications and tutorial and submit the form.
- 3) You will receive an email once you have been granted wiki access which will include your username and password. This may take several days.
- 5) Add your project proposal(s) to the projects in progress area and reply to the wiki access email (or send an email to agross@colorado.edu) to inform us that a project has been added.
- 6) You will be granted access to the data for the project(s) for which you are researching, and will be sent a new password for mydms data access.
- 7) Feel free to change your temporary passwords in the wiki and data management system to one password if you prefer.

If you have any questions, please email agross@colorado.edu
